

# Schrammbord

The diagram illustrates the cross-section of a curb (Schrammbord) used for traffic separation. The curb is shown as a raised structure with a top surface and vertical sides. The construction layers are as follows:

- Detail E/F/G/H:** Points to the vertical side of the curb.
- Abdeckblech, eingeklebt mit Triflex Cryl Spachtel:** Points to the top surface of the curb, which is covered by a plate (Abdeckblech) bonded with Triflex Cryl Spachtel.
- Versiegelung der Detailabdichtung mit Triflex Cryl Finish 209:** Points to the sealing of the detail joint with Triflex Cryl Finish 209.

The drawing also indicates the minimum width of the curb on both sides, labeled as **mind. 5 cm**.
