

Balcony waterproofing system

Triflex BTS-P – S1 version

System drawings

Surface – S1 version (flame-retardant)

System design, S1 version – Detail B

Drawing no.: BTS-P-2702

Height differences between fleece overlaps are exaggerated

Balcony waterproofing system

Triflex BTS-P – S1 version

System drawings

Wall junction

System design, S1 version – Detail D

Drawing no.: BTS-P-2703

Height differences between fleece overlaps are exaggerated

Balcony waterproofing system

Triflex BTS-P – S1 version

System drawings

Prop connector / penetration

System design, S1 version – Detail D

Drawing no.: BTS-P-2704

Height differences between fleece overlaps are exaggerated

Balcony waterproofing system

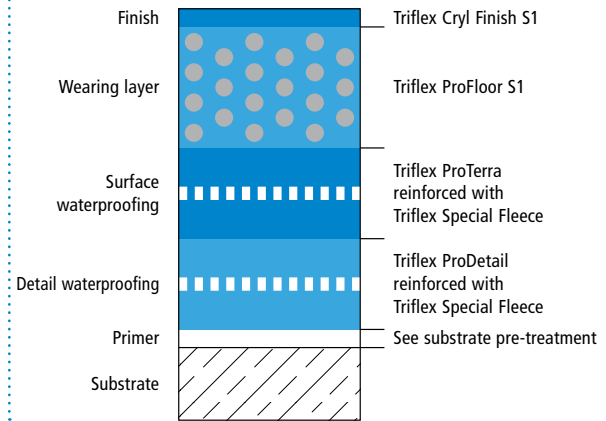

Triflex BTS-P – S1 version

System drawings

Gully

System design, S1 version – Detail D

Drawing no.: BTS-P-2705

Height differences between fleece overlaps are exaggerated

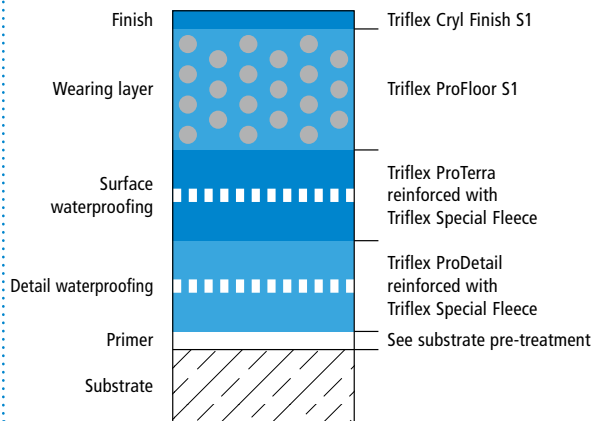

Triflex BTS-P – S1 version

System drawings

Leading edge with bracket-mounted gutter

System design, S1 version – Detail D

Drawing no.: BTS-P-2706

Height differences between fleece overlaps are exaggerated

Balcony waterproofing system

Triflex BTS-P – S1 version

System drawings

Leading edge with edge finishing profile

System design, S1 version – Detail D

Drawing no.: BTS-P-2707

Height differences between fleece overlaps are exaggerated

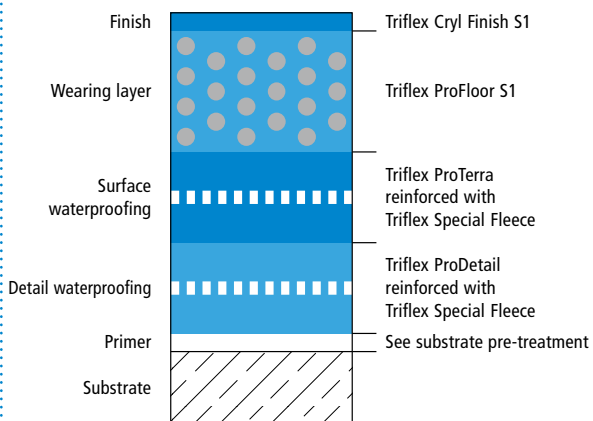

Triflex BTS-P – S1 version

System drawings

Construction joint

System design, S1 version – Detail D

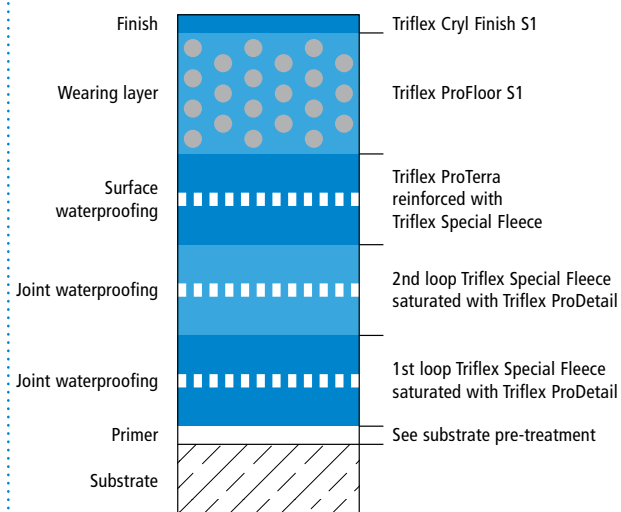

Triflex BTS-P – S1 version

System drawings

Settlement joint surface

System design, S1 version – Detail F

Drawing no.: BTS-P-2709

* Omission of surface waterproofing and wearing layer (see system description)

Height differences between fleece overlaps are exaggerated

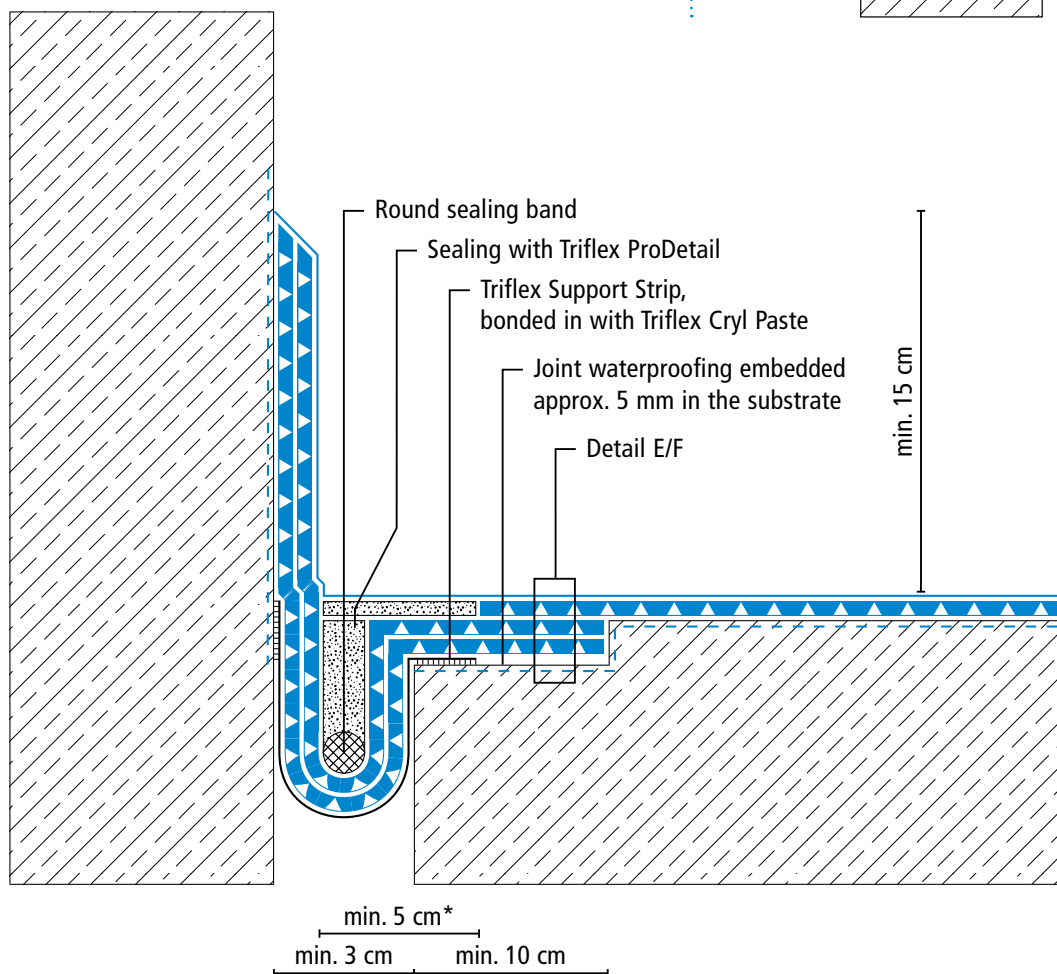

Triflex BTS-P – S1 version

System drawings

Settlement joint – wall junction

System design, S1 version – Detail F

Drawing no.: BTS-P-2710

* Omission of surface waterproofing and wearing layer (see system description)

Height differences between fleece overlaps are exaggerated
